

Acceptable Wastes	Prohibited Wastes
Plaster board and Gibraltar board	Mixed municipal refuse and waste water
Concrete, concrete blocks and bricks	Odorous wastes
Site clearance and excavation materials (including soils, clays, rocks, tree stumps)	Biohazard, medial or veterinary materials and wastes of any description.
Roofing products (corrugated iron, steel, clay tiles, steel coated tiles)	Pesticides, herbicides and other agricultural or horticultural chemical or animal remedies and their containers
Fibreglass	Human effluent and sludges
Wallpaper, lining paper and building paper	Bulk liquids or sludges
Formica, laminex, parquet	Ash from boilers or incinerators
Vehicle tires, rubber (up to maximum of 1% per load)	Any material resulting from waste treatment processes.
Boric treated sawn timber	Bitumen and asphalt
Untreated sawn timber	Coal fines
Flooring products (carpet and underlay, vinyl/linoleum, cork tiles, clay tiles)	Computers, electrical equipment and appliance, cathode ray tubes (computer monitors, televisions etc.) light bulbs containing vaporising metals
Wire, wire rope, wire netting	Asbestos
Insulation products (fiberglass and woolen batts) excluding asbestos products and paper products	Bulk used plastics (silage wrap and chemical containers)
Textiles	Contaminated solid and road sweepings
Softboard, hardboard, particle board, plywood	Treated sawn timber (not including boric treated timber)
Non recyclable glass	Waste products requiring special treatment (sanitary products and nappies)
Roading materials (excluding bitumen product an asphalt)	Paints, Varnishes, solvents or other similar products and their containers
Non recyclable steel and aluminium fittings (cable track , spouting)	Fuel and lubricant products (petrol, diesel, kerosene, oil, grease)
Cleanfill material, complying with the decision version of the Proposed Waikato Regional Plan	Car bodies, plant and machinery, transformers and their parts
Plastic materials and items associated with construction and demolition activities (including plastic bags, pipes, guttering, building wrap)	Green vegetation (Brush, tree prunings and small branches, shrubs, grass) excluding small amounts of green vegetation that may be present as a result of construction/demolition site clearance.
Dewatered sludge from the site settlement ponds and site lake only	Putrescible waste, including vegetable wastes, offal and animal carcasses
	Agricultural effluent or sludge
	Hazardous substances(including explosive, oxidizing, flammable, corrosive or toxic materials)
	Bulk food products
	Grease trap and storm water cesspit wastes
	Sawdust
